We manufacture a range of indoor and outdoor office pods to provide the best meeting space and breakout areas in open plan working environments

Our product benefits include:

- Exceptional design, high quality materials & acoustic interiors.
- Glass enclosure, back panel, table, lighting, power and AV accessories.
- Modular design from 2-8 persons, which can be reconfigured or moved.
- Bespoke internal and external colour and branding options.
- A footprint which is typically 40% less than equivalent partitioned offices.
- Outdoor options with solar panel charging facilities.
- Unique design with certificate of design registration.
- Competitive pricing with full delivery and installation service.
- 5 year structural parts guarantee
- Manufactured by us in the UK.

Try out our online configurator at www.themeetingpod.co.uk to create your PERFECT pod.

Modern office environments are changing to attract and retain the best people. Employers must now provide engaging open plan spaces combined with funky breakout and agile working areas.

Our office pods are dynamic in style, exceptional in quality and deliver a purpose that is now aligned to the new ways we want to meet, work and learn.

meeting pod

With its stunning design, modular capability and full range of accessories, our meeting pods can deliver a collaborative working environment in any space.

● Open meeting pod

● Part enclosed, acoustic back panel meeting pod

● Part enclosed, glass back panel meeting pod

fabric colour

case studies

rocketmakers

Rocketmakers, a website, app and software design company were looking to create a workspace to reflect the dynamic and innovative organisation that they are. The Meeting Pod Co worked with Interaction, experts in the modern workplace, to create meeting pods that delivered their very own 'Rocket' together with a collaborative space that has transformed the working environment

itg

ITG recently completed a total office transformation. They were looking to finish off their office revamp with the additional of 3 dynamic collaboration spaces, and our escape pods were the stand out pieces they'd been looking for. With employees returning to the workplace the pods have been hugely successful, enabling the team to increase the number of meetings and interactions, along with doubling up as breakout space and looking great!

Simon Ward, Managing Director, at ITG commented:

"The pods have hugely surpassed our expectation and have empowered staff members to interact in dynamic spaces around our office. The response has been brilliant, with the team booking the pods out constantly! It was great working with The Meeting Pod Co, they understood the brief and delivered the pods on time and in a seamless manner."

candle house

Candle House is a prestigious and iconic residential apartment block located on the Granary Wharf Estate in the heart of Leeds city centre on the Leeds and Liverpool Canal.

Neil Walker, Director & Project Lead commented;

"Having looked at various options for seating and pod units for our residents to use during our major Roof Garden refurbishment planning The Meeting Pod Co clearly stood out as a high-end manufacturer, with a product that would fit well with the overall aesthetic that we wanted to achieve. The installation process could have not been any more professional and efficient. The Roof Garden pods have been very well received by our residents and they are now a go-to destination for residents to work from during the day and to relax and socialise on an evening".

remarkable design

Our in-house design team work to achieve design that deliver statement pieces in any workplace or home environment combined with a functionality that makes our products a joy to work from.

exceptional quality

Our production team recognise quality sits along-side consistency, so we must be proud of every product that is manufactured by us.

sustainability

From design, engineering, material sourcing, transportation and support, all aspects of our manufacturing continuously evolve to minimize negative environmental impact. Our 4 person Meeting/Outdoor Pod shell's composite resin has been sourced from a recycled material that is made up from 1800 plastic bottle tops.

expansion

Our first business move was from a 450 square foot workshop to a fully operational 3500 square foot industrial facility

a bit of home

Inspired by the yachting location, the pods adopted high quality composite materials associated with the Isle of Wight boat building industry

product growth

In 2019, after much demand, the first outdoor pod product was designed and brought to market

the meeting pod co was born

In 2016 Tom's unique curved design received unanimous praise from Mike's staff and clients and so The Meeting Pod Co Ltd was established

the pandemic

The 2020 pandemic stimulated an explosion in global demand for outdoor pods with completed projects in the US, Europe & Middle East

how it started

Mike, the CEO of a successful research agency, couldn't find a suitable meeting pod for his business, so he commissioned Tom (his carpenter son-in-law) to build one

our success

In 2021 following rapid growth we moved into the latest 10,000 square foot manufacturing facility, which houses a workforce of 25 people.
